

Health Statistics Quarterly 19, Autumn 2003

The latest trends in the UK's health are covered in Health Statistics Quarterly (HSQ), a sister publication to Population Trends. Published in February, May, August and November, it presents current information in an easy to read format, beginning with an overview of the latest news, and a review of related publications for release. It contains commentary on the latest health findings, topical articles illustrated with colour charts and diagrams, and regularly updated statistical graphs and tables. It also highlights trends in health, and details the latest quarterly information on deaths, childhood mortality, cancer survival, abortions, congenital anomalies and morbidity.

Years of life lost due to mortality from Hodgkins disease .
