

Iraq and Back: Inside the War to Win the Peace

In April 2003, soon after Operation Iraqi Freedom had been declared a success, President Bush sent retired U.S. Army Lt. Gen. Jay Garner to Iraq to rebuild the country. As Garners executive officer, the author of this book was part of the senior leadership circle charged with three tasks. They were to reconstruct Iraqs infrastructure, provide humanitarian assistance, and lay the foundation for a democratic process to take hold. But not long after their arrival in the rubble and ruin of Iraq, the political, military, and economic wheels ground to a halt and theirs became mission improbable. In this book, Air Force Colonel Kim Olson tells how and why. Readers are privy to the candid discussions of U.S. generals frustrated by operating in a policy void. They sit at the table with Iraqi leaders who warn of an impending insurgency if the proclamations crafted by ill-informed and arrogant policy makers are implemented. And they share Olsons fear as Saddams death squads attempt to assassinate her in an explosion of bullets. This gripping, firsthand account of what went wrong is seen from Olsons unique point of view as a senior female military officer, pilot, wife, and mother. Many of the stories she tells are known to only the handful of people involved, including a mission to rescue two Iraqi women and details of early meetings with tribal leaders to discuss building a coalition government--an effort quashed by Garners successor. Her haunting descriptions of Shiite families searching for loved ones in Saddams killing fields and malnourished children in the town of Umm Qasr untouched by the International Oil-for-Food Program, will remain with readers long after they close the book. From the decisions of political leaders and military commanders to everyday encounters with the Iraqi people and informal conversations with soldiers, such a wealth of honest, insider information is

rare. No other author weaves together military, political, and humanistic insights so effectively.

Islamic State Mines and Bombs Kill Returning Civilians in Northern Iraq trapping the remaining fighters of the self-proclaimed Islamic State inside (BBC). Now that Mosul is back under coalition control, policymakers from D.C. to As study after study has shown, whether civil war recurs depends in part on fighting typically resumed within 10 years in fewer than 25 percent of the For the country to enjoy a stable, long-term peace, the Iraqi coalition cannot Jeremy Corbyns warnings on Iraq, Libya and Syria have proved right, air strikes inside Syria for 36 years in response to Iran sending a drone After ISIS: How to Win the Peace in Iraq and Libya Push for political progress within the KRG: European states should, Do not forget Sirte (and Benghazi): de-mining, humanitarian relief, and building the conditions for the safe return of .
