

The Mobile Youth: Voices of the Mobile Generation: 10 stories of how young people use mobile technology

One Billion and Growing Fast... 1 billion people under the age of 30 today now own a mobile phone. Every single young mobile owner has a story tell and new way of using the device adults havent even thought of yet. Its youth who showed the world how to use Facebook, SMS, Blackberry Messenger and file sharing. What will they think of next? A Journey of Technological Discovery from the Rio to Tokyo Author Graham Brown travels from the dangerous favelas of Rio de Janeiro to the quirky backstreets of Shibuya Tokyo on a quest to discover how young people interact with their phones and what this means for innovation. He leads us into a world unknown to many adults - the secret world of teenagers and their mobile devices. The insights he shares from these stories will challenge your assumptions about young people, technology and communications. Who is This Book For? Recommended for technologists, digital anthropologists, psychologists, consumer behaviorists, ethnographers, insights managers, brand owners, educators, marketers, innovators and change agents alike. Praise Mobile Youth: Voices of Mobile Generation is a must read for anyone--youth marketers, parents, educators, youth pastors--wanting to garner a better and deeper understanding of the emotional relationship between young people and their mobile phones. - Derek Baird, Product Director at Disney Highly educational and a should read for us tech marketeers, youth marketeers or in general for you who want to know and understand whats driving youth in our world from west to east. Great reading! - Knut-Espen Bryhn, Product Manager, Telenor There is no excuse to not know him, especially as he has long shared his insights, stories, pictures, and deep knowledge with one and all. This book offers instant texture to anyone confused by THE core technology driver: MobileYouth. - Edward OMeara,

SVP Wunderman Network What makes this book such a great read is that it's written as a narrative in the life of different young people around the world. It's not a list of pointers that define young people. How could it be? It would be like limiting who you are to a set of bullet points simply impossible! What it will do is open your mind, get you thinking and change the way you see young people every day. It'll entertain you, and keep you riveted in the stories as you explore the lives of these global youth. - Marc Kornberger, CEO Student Village
